

**FC2020**

Sinteso™

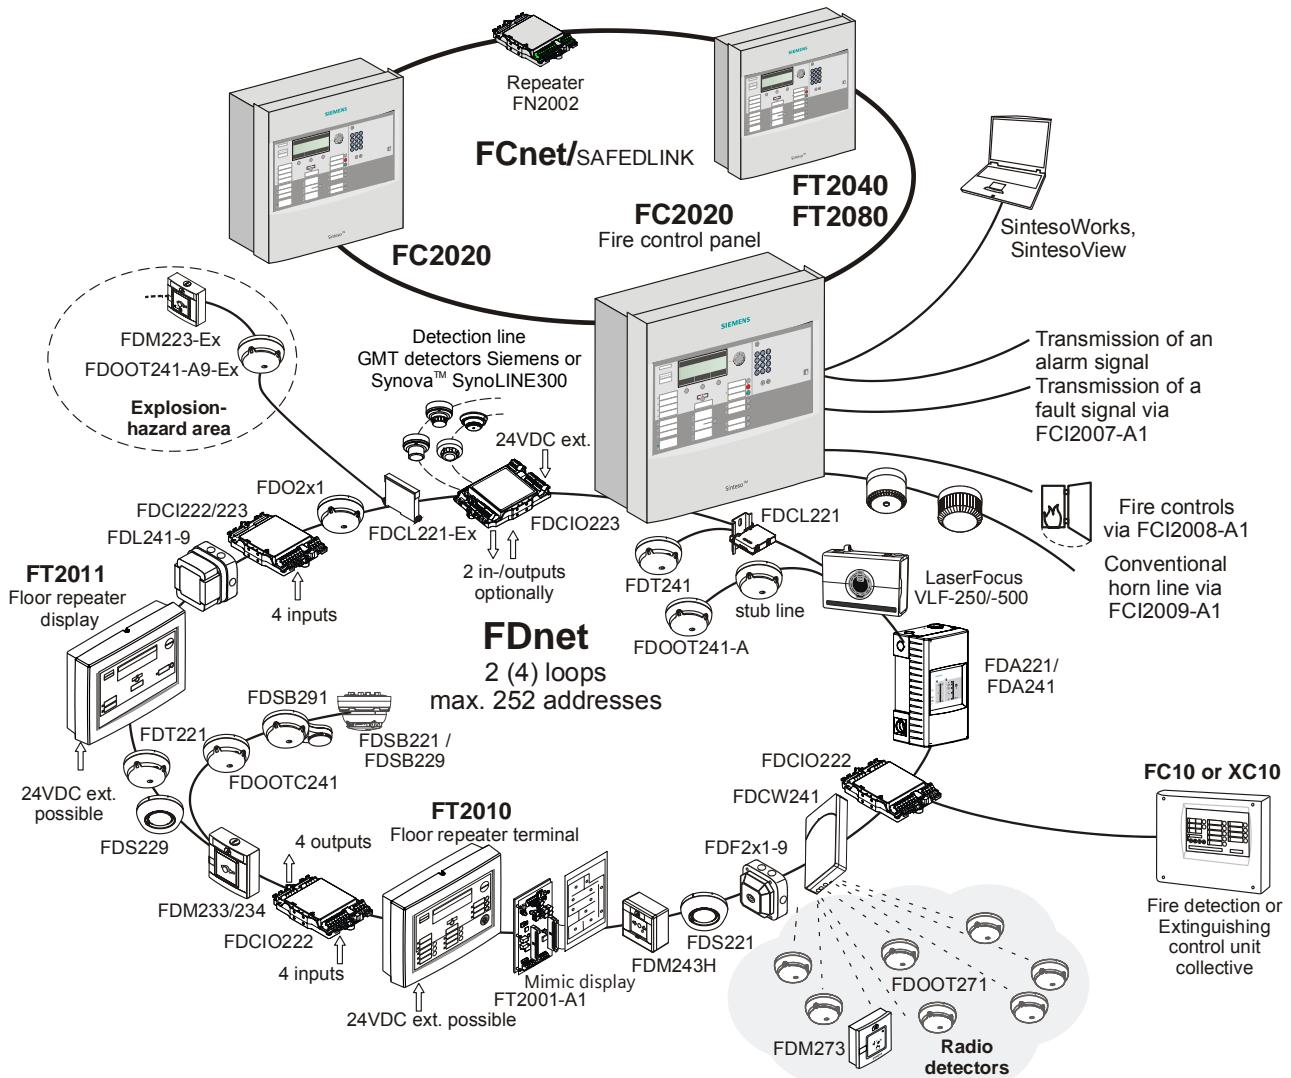

## Fire control panel

CE

FS20 series, MP6

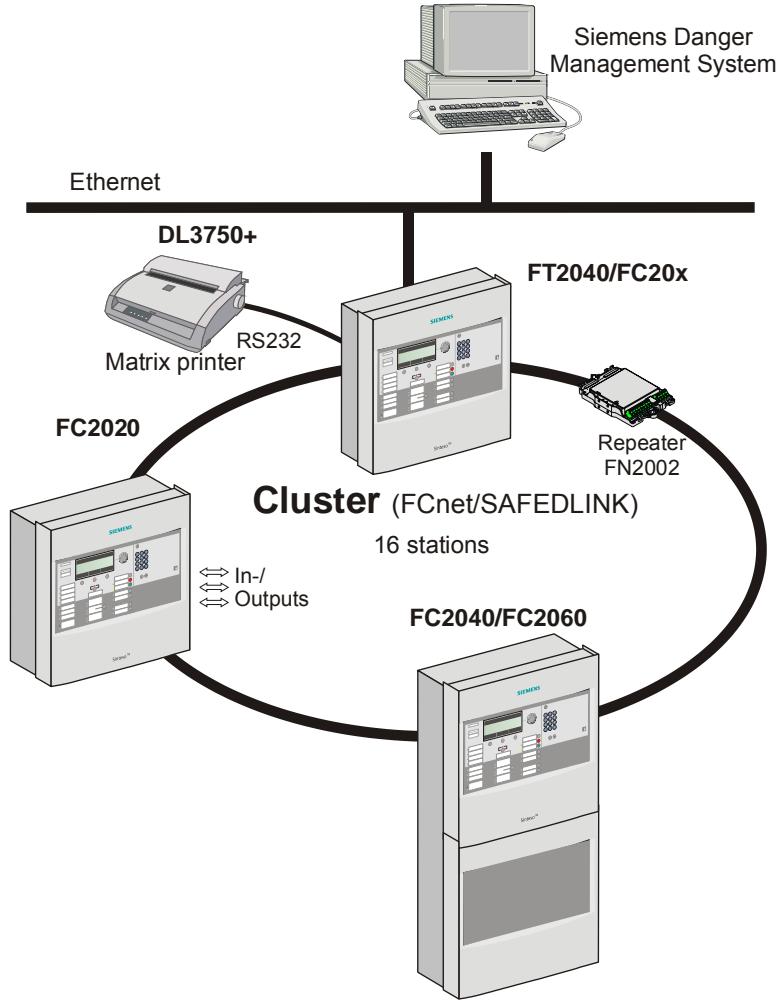

- 
- Compact, pre-assembled, microprocessor-controlled fire control panel with integrated operating unit for up to 252 addresses
  - Fire control panel can be used as a standalone version or can be networked
  - Up to 64 stations, such as control panels and terminals, can be linked to form a network
  - Integrated degraded mode function
  - Redundant network node, degraded mode operation according to EN 54
  - Fast Ethernet interface for a heterogeneous network
  - Integrated user-friendly operating unit
  - Can be extended by adding printer, key switches, LED indicators
  - Slots for RS232 and RS485 serial interfaces
  - Emergency power supply for emergency operating time of up to 72 hours
  - Detection and automatic reading in (auto-configuration) of all FDnet devices, ready for operation immediately
  - Processes signals from Sinteso detector series
  - Time and situation-dependent changeover of detector parameter sets
  - Floor repeater devices, alarm devices, and mimic displays on detector line (FDnet)
  - Flexible configuration of complex applications and controls
  - Configuration data can be uploaded/downloaded via remote access
  - Firmware for all processor-controlled control panel components can be updated

## System overview

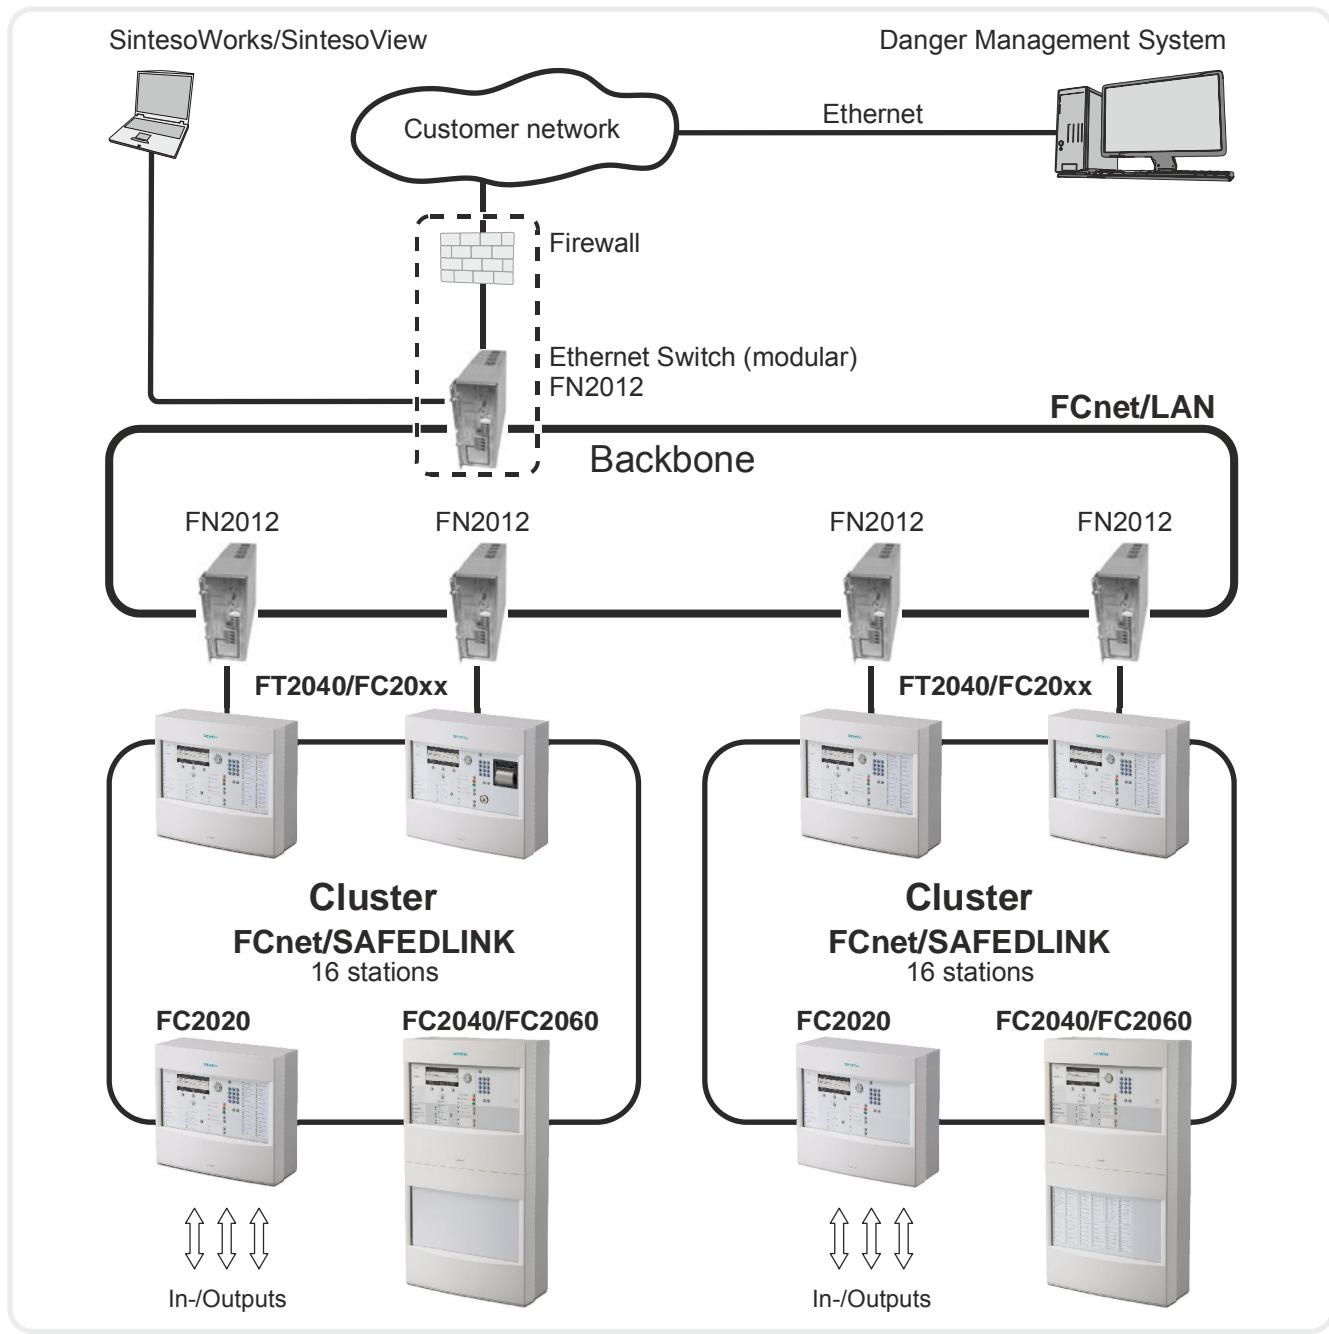

## Networking of several fire control panels

Up to 32 control panels and terminals can be linked to form a cluster (FCnet/SAFEDLINK network). If the cluster is connected to a danger management system via BACnet, up to 16 control panels and terminals can be networked.

An optical Ethernet network (FCnet/LAN) allows up to 14 clusters with up to 16 stations to be operated on one network. A maximum of 64 stations is supported in total.

You will find details of system networking in product data sheet 008955.

## Function features

- The FC2020 is a compact fire control panel with integrated operating unit for processing signals from Sinteso devices.
- The control panel may be used as a standalone unit or networked.
- The control panel and the fire detection system are custom-configured using the SintesoWorks software.
- All detector lines are monitored for ground faults.
- Customer texts can be adapted directly on the operating unit of the control panel or with the SintesoWorks software.
- Up to 2000 events can be retrieved from the event memory based on various criteria.
- Automatic summer/winter time changeover
- Siemens danger management system can be connected

### Operating unit

The following elements are available on the operating unit:

- CPU module and electronics
- Ethernet connection
- Slots for RS232 and RS485 modules and network modules (SAFEDLINK)
- Space for 'Kaba' or 'Nordic' key switch
- Space for event printer (depending on version)
- Peripheral data bus connection for optional LED modules (for FC722 in Comfort housing)

### Periphery board

The following elements are available on the periphery board:

- Connection terminals for FDnet lines, remote transmission (alarm, fault), horn output, configurable control inputs and outputs, monitored alarm and fault output, emergency supply, power supply
- Slot for loop extension (FDnet)

### 70 W or 150 W power supply, emergency power supply

The power supply feeds the hardware and charges the batteries.

In the event of a power cut, the batteries provide emergency current.

### Housing

A pivoting mounting plate can be fitted for the following elements above the periphery board on the rear housing panel:

- 1x fire brigade periphery module (for Germany)
- 1x sounder module (as an alternative to mounting on U-rail TS3)

### Configuration

The FXS2002 SintesoWorks software allows the system to be customized.

## Application ranges

---

The FC2020 is ideal for smaller applications, e.g., for use in workshops or hotels, or as a device in a network.

However, thanks to the flexible networking options, the FC2020 can also be used for large-scale sites.

## Operation

---

Each control unit has an integrated operating unit. The control panel can also be operated via a separate FT2040 fire terminal.

You will find details and more information in product data sheet 009386.

## Overview of FC2020 fire control panels

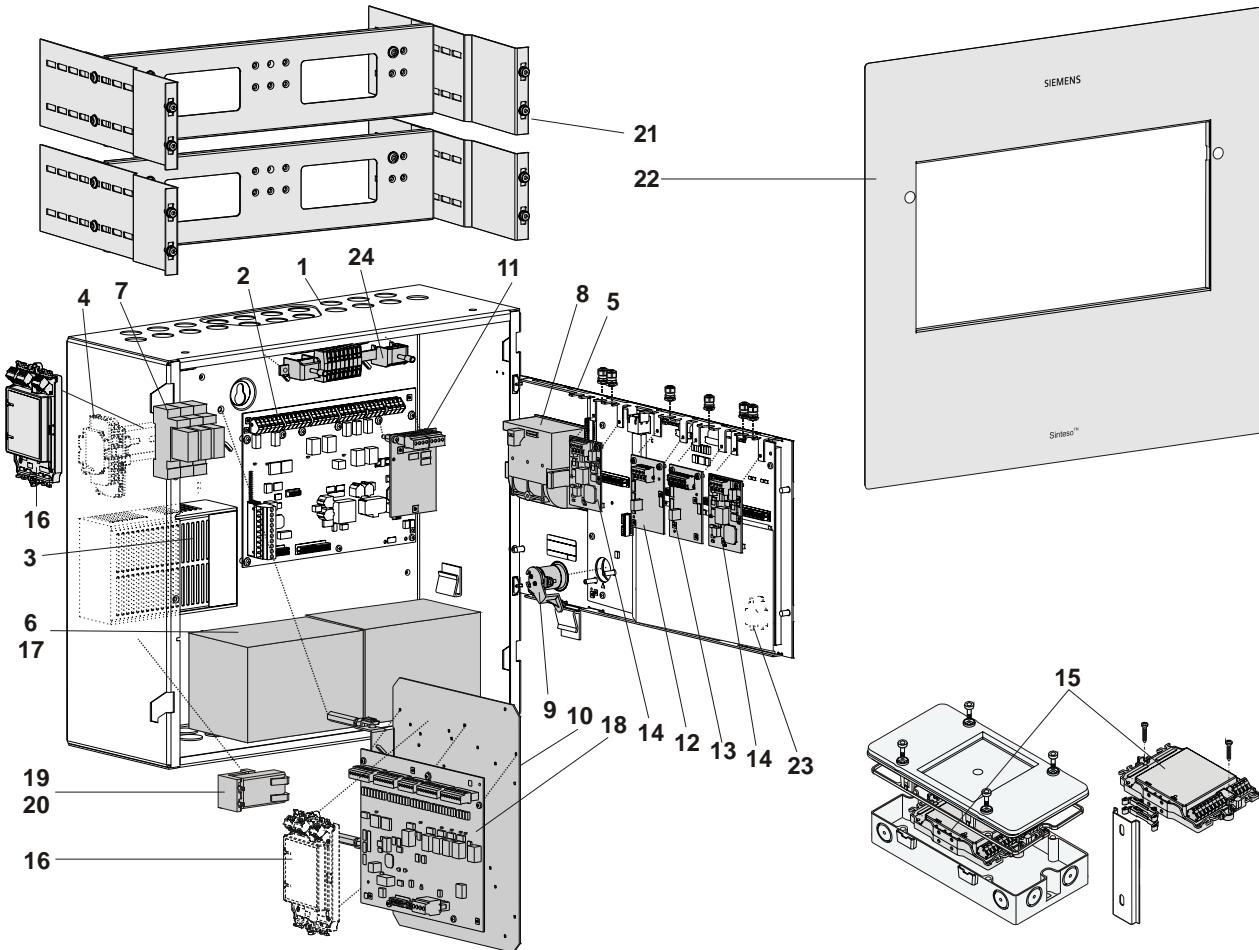

Housing (Standard)		Housing (Comfort)

## Layout of FC2020 inside housing (Standard)

Basic equipment	Designation	Notes
1 Housing (Standard)	FHA2002-A1	
2 Periphery board (2-loop)	FCI2002-A1	Items 1-5: Basic equipment for each FC2020-xx (Standard)
3 Power supply (70 W)	FP2015-A1	
4 Mains terminals on TS35 DIN rail	—	Space for socket, relay modules
5 Operating unit	FCM20xx-xx	Operating unit with CPU
6 Space for batteries	—	2x 12 V / 7...12 Ah
<b>Extensions</b>		
7 Relay module	Z3B171	Relay for fire controls
8 Event printer	FTO2001-A1	For logging events
9 Key switch (Kaba)	FTO2005-C1	
9 Key switch (nordic)	FTO2006-B1	For operating access authorization
10 Mounting plate	FHA2007-A1	E.g., for fire brigade periphery module
11 Loop extension (FDnet)	FCI2003-A1	For extending the number of loops from two to four, the number of addresses remains the same
12 RS485 module (isolated)	FCA2002-A1	For peripheral devices with an RS485 interface
13 RS232 module (isolated)	FCA2001-A1	For devices with an RS232 interface
14 Network module (SAFEDLINK)	FN2001-A1	For networking several stations
15 Repeater (SAFEDLINK)	FN2002-A1	For extending the FCnet system bus, max. 1x repeater (SAFEDLINK) between two stations (mounted directly on a plane surface, on a TS35 U-rail, or in housing FDCH291/292)
16 Sounder module	FCA2005-A1	For splitting one conventional sounder into four
17 Battery (12 V, 7 Ah, VDS)	FA2003-A1	
Battery (12 V, 12 Ah, VDS)	FA2004-A1	For the emergency power supply
18 Fire brigade periphery module	FCI2001-D1	For Germany (FBF, FSD, ÜE, FSE, ÖA, KL)
19 Battery kit (9 V)	FCA2010-F1	For 9-volt battery (3rd source of voltage for France only)
20 Block battery type E 9 V / 1 Ah	—	for FCA2010-F1
21 19" mounting kit	FHA2016-A1	For installation in 19" third-party housing
22 FM blind 1HE	FHA2017-A1	For recessed mounting of housing
23 License key Sx	FCA20xx	For special functions
24 Cable kit (communication)	FCA2014-A1	For flexible connections running to the modules on the operating unit

## Layout of FC2020 inside housing (Comfort)

Basic equipment	Designation	Notes
1 Housing (Comfort)	FHA2003-A1	Items 1-5: Basic equipment for each FC2020-xx (Comfort)
2 Periphery board (2-loop)	FCI2002-A1	
3 Power supply (SV 24V-150 W)	V24230-Z6-A5
