

## IR200CD

Visatec II

### Passive infrared detector

- **15 m wide angle with look down zone or 25 m continuous curtain (optional)**
- **Fully digital VISATEC II signal evaluation**
- **Intelligent temperature compensation**
- **Choice of four application settings**
- **Three-stage white light filter with changeable black mirror optics**

**Versatile application.** An attractive design, time-saving installation, reliable detection and outstanding immunity make the IR200CD the ideal motion detector for industrial and commercial applications, as well as for more demanding and sophisticated applications in the private sector.

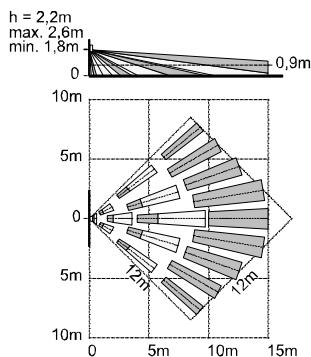

**Fast and simple to install.** The versatile housing base allows wall and corner installation without accessories.

**Outstanding immunity.** A comprehensive protection concept makes the detector insensitive to environmental problems.

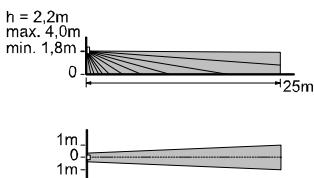

**Safe detection.** The patented mirror optics guarantee a high level of detection reliability, thanks to a look down zone for crawl protection, and uniform sensitivity in the 'chessboard' zone pattern. Multi-criteria signal analysis system differentiates intelligently and reliably between intruders and disturbance signals.
